RESEARCH EXPERIENCE

Graduate Student Researcher

Higher Education Research Analysis Lab, School Education, University of California, Irvine

Advisor: Di Xu, Ph.D.

Co-Advisors: Renzhe Yu, Ph.D, Qiujie Li, Ph.D.

Project: UCI MUST – Educational Data Mining

- Investigates the association between learning design and equity in academic performance and engagement using learning management system data

Project: TimeWise Project

- Develops a chatbot tailored for non-traditional adult learners to offer personalized coaching to address time management challenges in online education

Oct. 2023

– Present

Data Scientist

Data Hub Team, Office of Digital Information, Korea University

Advisor: Gyu-Tae Kim, Ph.D.

Co-Advisor: Young-gun Ko, Ph.D.

Oct. 2020

– Apr. 2023

Project: Psychological Support Program for College Students in the COVID-19 Pandemic

- Examined how college students' mental health affects their academic adjustment, including academic achievement, engagement, and stress during the COVID-19 pandemic
- Developed and validated the COVID-19 Impact Scale (CIS) to measure psychological stress responses caused by the pandemic

Project: AI-Based Academic Support Program for College Students in the COVID-19 Pandemic

- Build early prediction models based on deep learning algorithms to predict students' academic achievement using massive LMS log data

Project: Development of Recommendation System based on ML/DL for Graduate Students

- Developed AI-based services to recommend research articles, class lectures, and scholarships for graduate students based on their personal interests including academic interests.

Clinical Psychology Master's Program Student

Department of Psychology, Korea University

Advisor: Young-gun Ko, Ph.D.

Mar. 2018

– Aug. 2020

Project: Visualizing Self-image Using Reverse Correlation (RC) Method

- First evidence to visualize mental representations of self through the RC method and examined their relationships with psychological features.

Project: Borderline Personality Features and Emotional Recovery

- Investigated the association between borderline personality features and prompt emotional recovery

Project: Investigation of the Effects of Internet Games on Users' Stress and Well-Being

- Ecological Momentary Assessment (EMA) study to examine the effects of gaming time on daily stress responses and subjective well-being among adult game users.

Undergraduate Research Assistant

Department of Psychology, Korea University

Advisor: Young-gun Ko, Ph.D.

Aug. 2015

– Feb. 2018

Project: Mental Health and Belongingness Orientation of Homeless People

- Investigation of the association between mental health and belongingness orientation of homeless people.
